HEROES**

A Tooth-Tastic **TREASURE HUNT**

Gila von Meissner

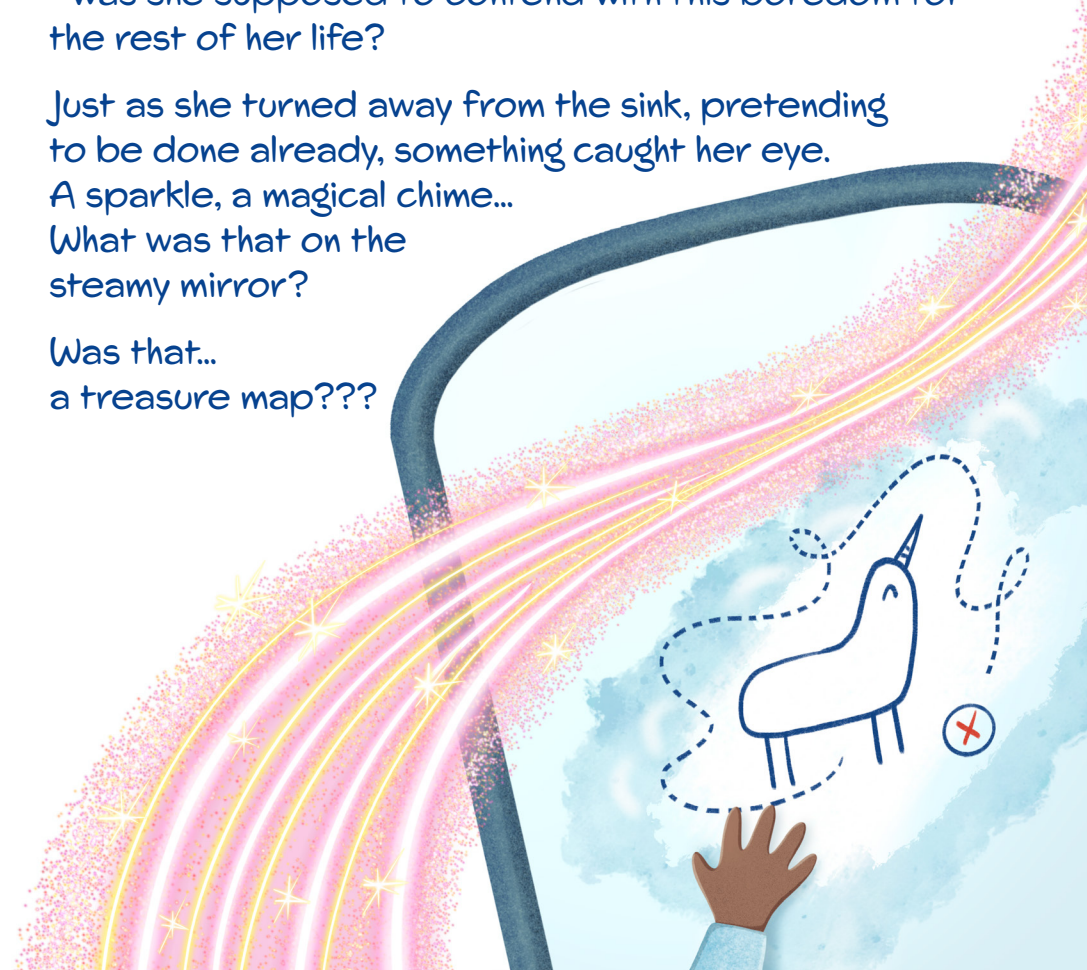

Another day, another bathroom chore. Julie wondered - was she supposed to contend with this boredom for the rest of her life?

Just as she turned away from the sink, pretending to be done already, something caught her eye. A sparkle, a magical chime... What was that on the steamy mirror?

Was that... a treasure map???

With a swoosh, Julie is pulled into the mirror, and finds herself in the jungle ... clutching a treasure map.

To enter and explore
The kingdom that is sunny,
Choose the lever that is small
And dense and soft just like a bunny.

Easy! Julie knows that one!
Her toothbrush was small and
soft like a bunny, too!

The seesaw seems an easy riddle,
But which of the jewels will match the stone?
The one that is small like a pea
Might be the one to access the throne.

She knew this one, too!

Mum had helped her
measure the right
amount of toothpaste
before.

Hold it right and move in circles,
gently brush it round and round.
It will reveal another clue,
and soon you will be treasure-bound.

Julie dances around in circles until
she gets dizzy, but nothing happens.

Then she has an idea.

If the whole treasure hunt was about brushing her
teeth, maybe this riddle was another step?

Thinking back to what Mom had taught her,
Julie knew just what to do.

She carefully positions her
colourful toothbrush, moves it
around on the outside
like Mom had shown her
- and voila!

Underneath the toothpaste,
the next clue becomes visible.

Julie removes
the toothpaste,
but doesn't wash it
off with water as
she doesn't want to
damage the faint clue.

Yes! Julie had solved the riddles! She really knew her stuff when it came to brushing her teeth!

It was time to get home ... but maybe she could bring some friends?

Another POP, and Julie is back at home in the bathroom, just as Mom is calling for her.

JULIE, ARE YOU DONE YET?

Almost! Just having a treasure-tastic toothbrush party in here!
